"FIERCE LIGHT: When the Spirit Meets Action" an award-winning film is about what should motivate us when we take action to promote justice and peace in the world. Martin Luther King called it "Love in Action"; Ghandi called it "Soul Force". This film calls it "Fierce Light". With stunning cinematography, a compelling soundtrack, and dramatic stories of resistance and transformation, FIERCE LIGHT reveals what is possible when human beings, faced with a world in crisis, rise to their absolute best. If you care about the welfare of all the inhabitants of our planet, this movie will inspire you to realize that confrontation and animosity are ultimately not effective in bringing about change.

NFB Audience Award & Special Jury Prize - Vancouver International Film Festival
